Just bead it!

ABOUT US:

Miniart Crafts - creates unique embroidery kits, which you can place in your interior and they favorably complement it.
Philosophy of "Miniart Crafts":

- ◆ We are paying much attention to the quality of fabrics and beads that we use for our designs. We choose one of the world's best beads brand – Preciosa (Czech Republic).
- ◆ We create schemes that will suit to any interior from Art Deco and Classic to Minimalism and High-tech.
- ◆ We do not limit ourselves when selecting the materials for our designs. Our goal is to create a perfect picture that will become a worthy decoration of any interior.

◆ We use beads of different sizes, not only standard sizes of 10. This allows creating pictures with a 3D effect.

◆ In the development of schemes, we are striving for the jewelry design of the picture. Our motto is "Every bead in its right place".

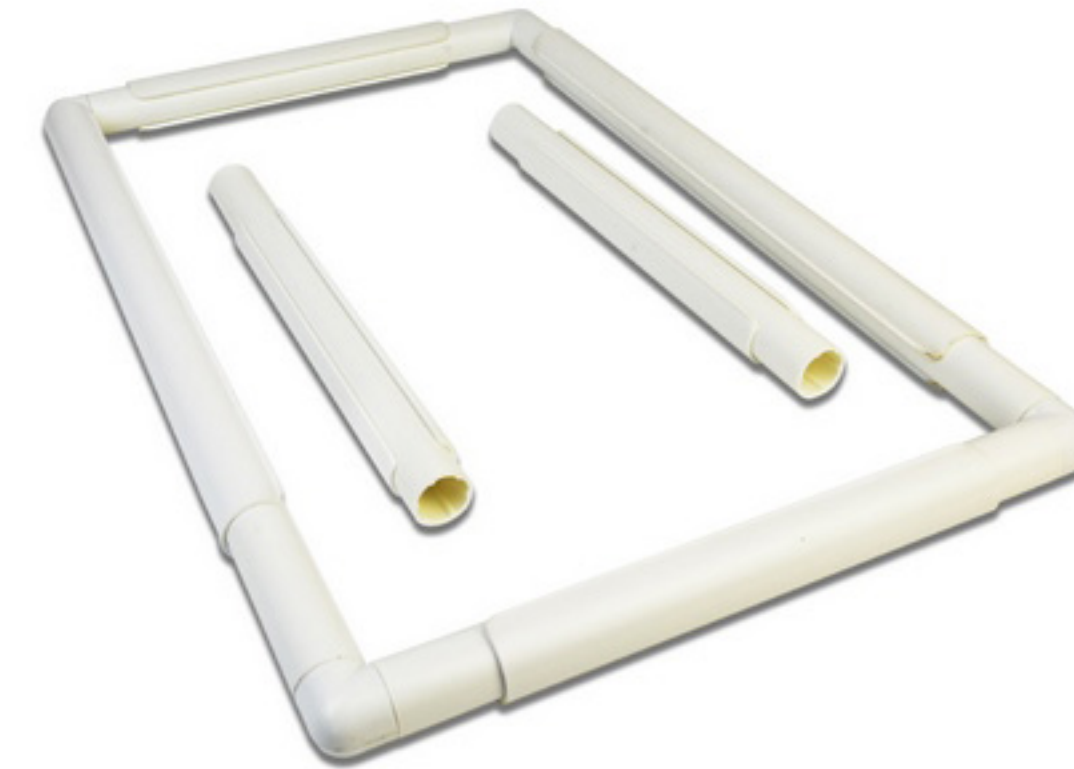

◆ Our schemes are designed for any skill level from «Easy» to «Expert». Therefore, even if you are new to needlework, you can create by yourself a great picture that will decorate your living space.

When we made something with our own hands, we experience a sense of relaxation along with meditation. Embroidery has a "therapeutic effect" and when we see a wonderful, creative work
